

MEAT RACKS

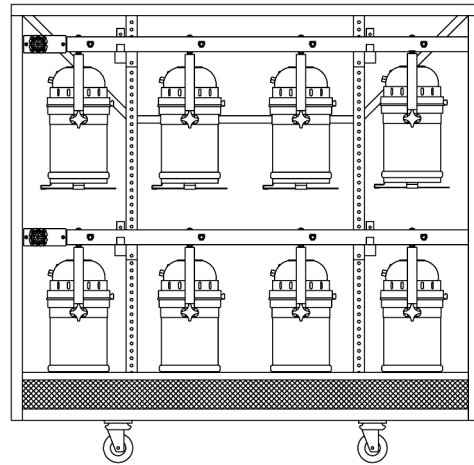

The Meat Rack is designed to carry lighting bars and is manufactured from 1 1/2" Aluminum box. The Meat Rack is built for robustness with caster wheels around the base for ease of mobility. The frame is aluminum and has a wooden floor and roof (the meat rack is unpainted). Standard items are listed below. Other sizes to suit specific requirements can also be manufactured.

8 Bar adjustable meat rack for 60" lighting bars. Diagrams below show meat rack with lighting bars in storage position.
